

Pitch Board

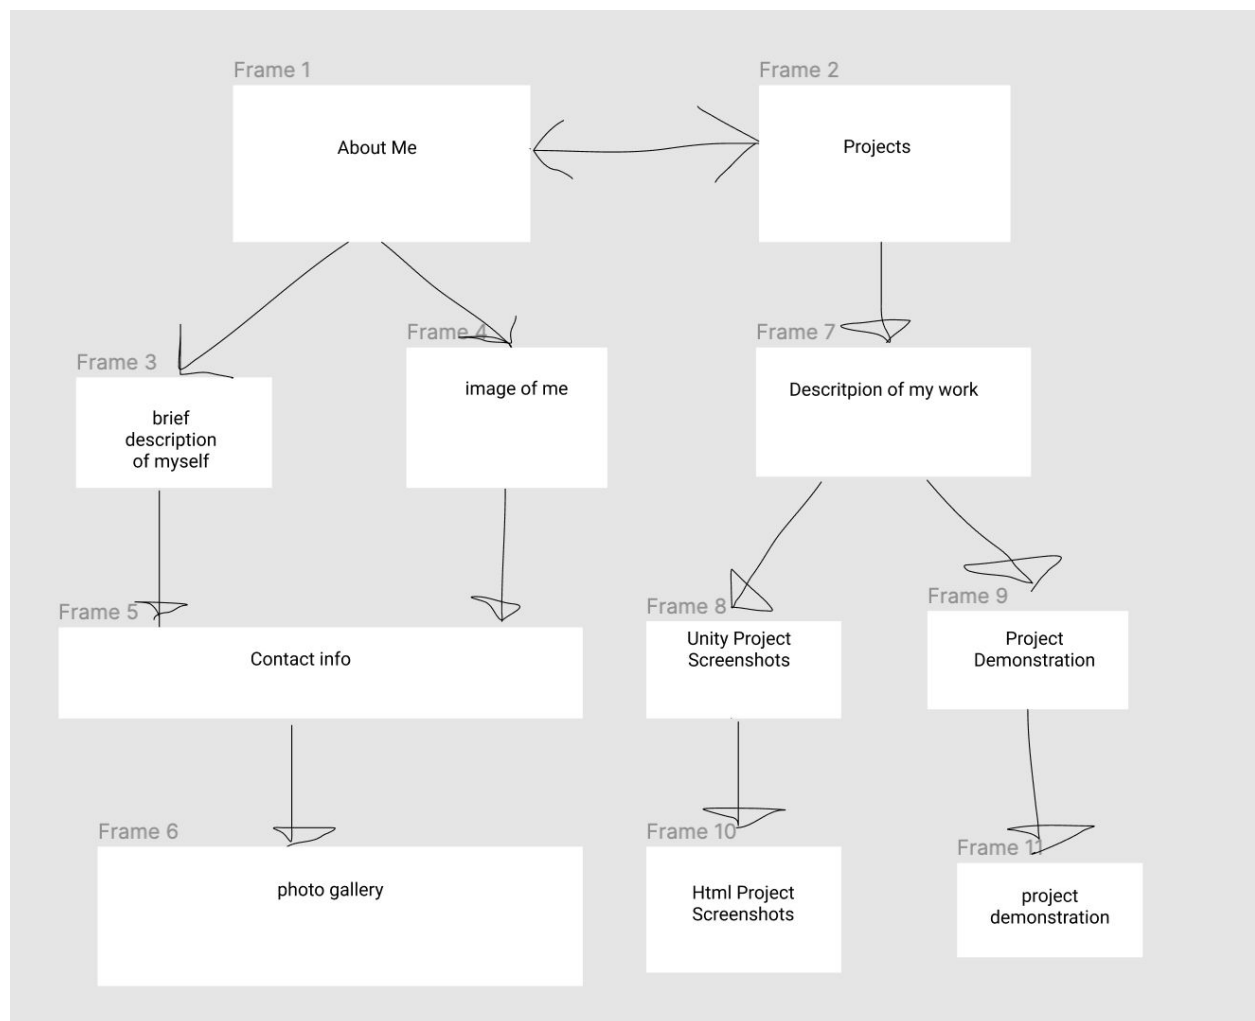

Short Pitch - This will be a portfolio website for myself to show to potential employers.

Long Pitch - On this website I will display who I am as a person as well as what I have been able to create throughout my time at Michigan State. This will serve as more than a resume for me. It will not simply be a description of my qualifications, but it will provide a better interpretation of me as an overall person, as well as properly portray the qualifications from my resume.

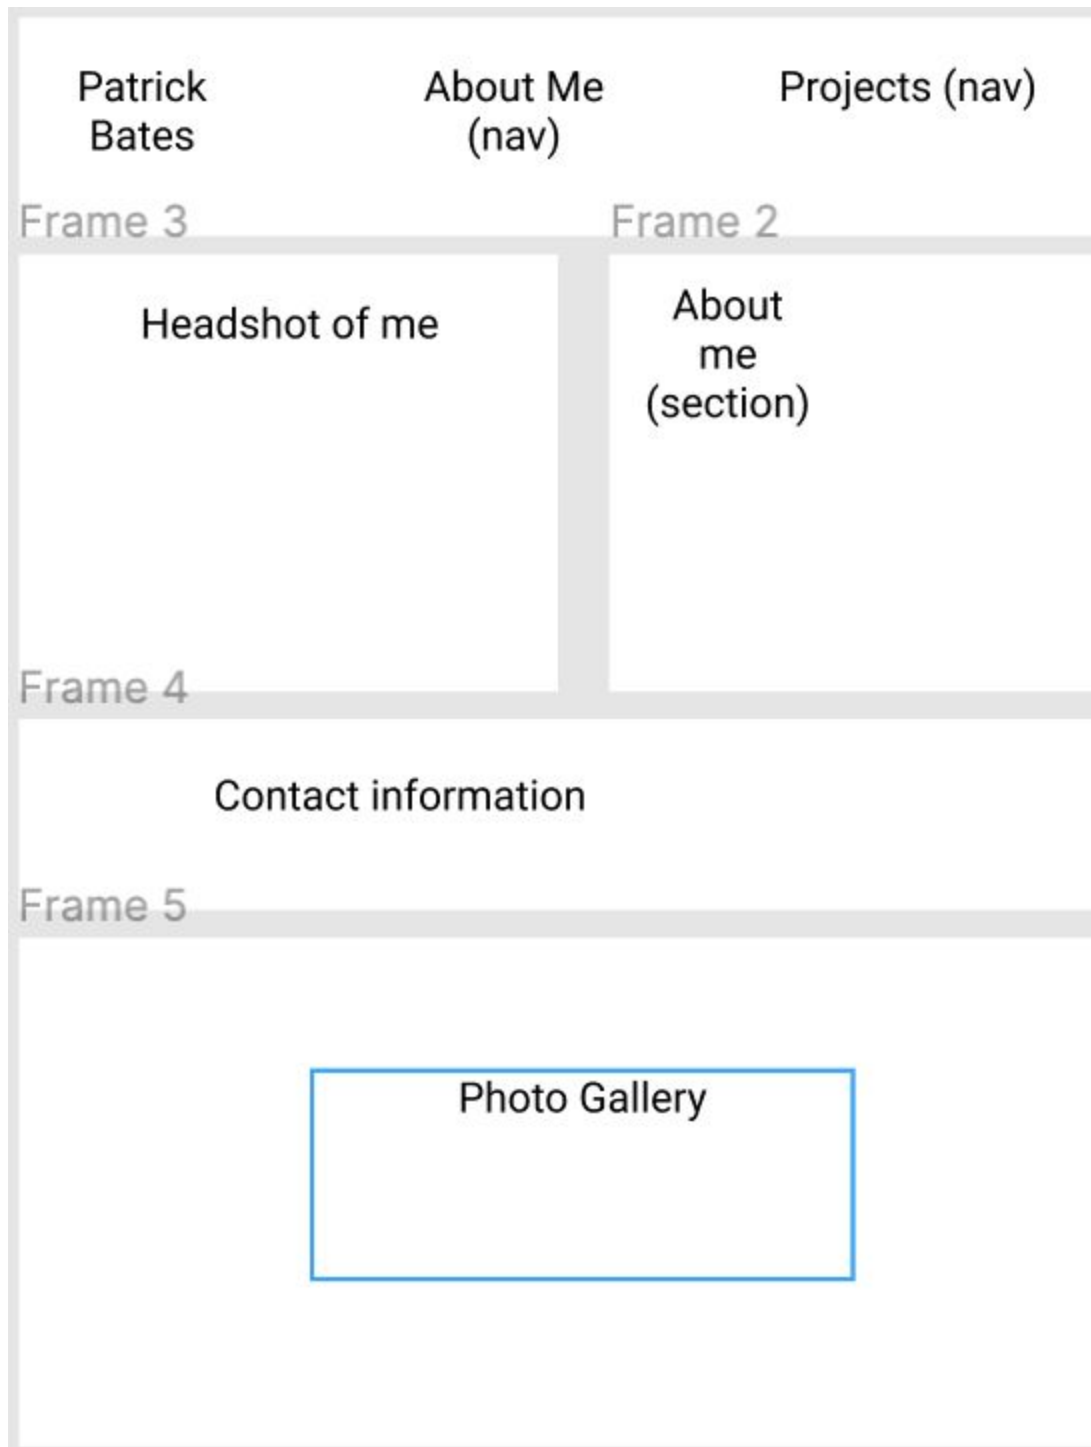

Personas :

1. Employers
2. Family
3. Friends
